VS

Backends?

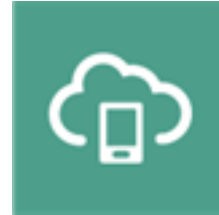

Azure Mobile Apps

IBM MobileFirst

Amazon Web
Services

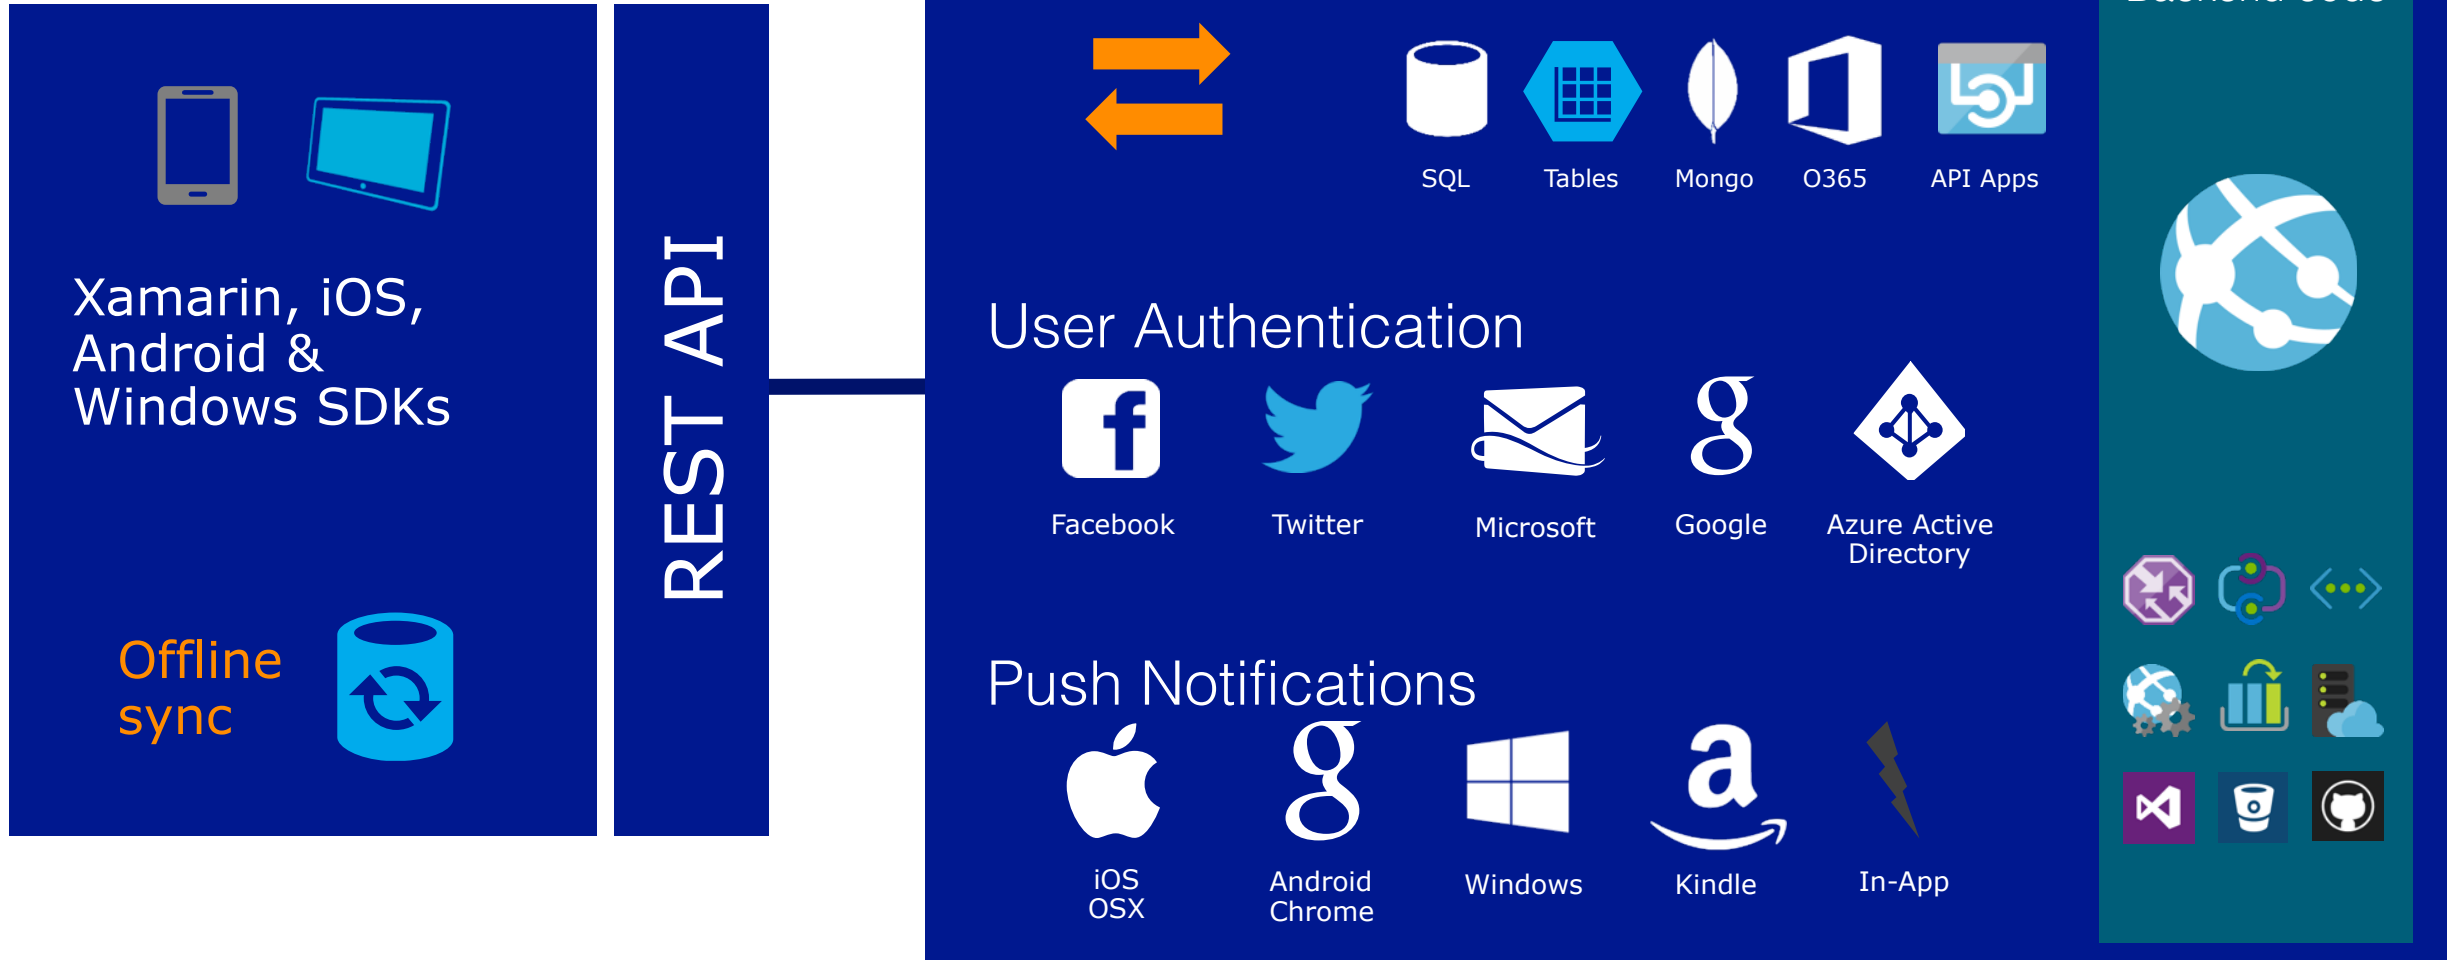

Oracle Mobile Cloud

Why azure?

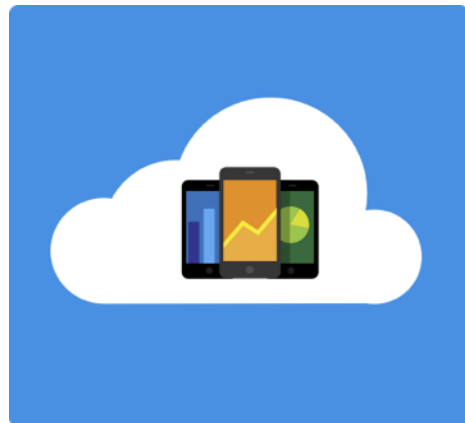

- Extremely powerful
- Flexible
 - App Service
 - Easy Tables
- C# SDKs available everywhere:
 - C#- iOS, Android, & Windows with Xamarin
 - C# clients, written by C# developers (open source)
 - C# backend with [ASP.NET](#)

Structure of Azure Mobile Apps Library

DEMO

How to make it easier?

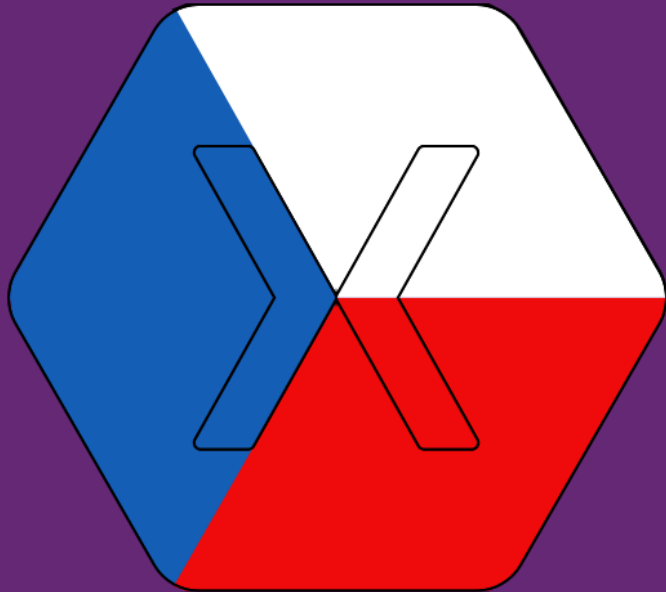

App Service Helpers

Add Azure to your .NET app with 4 lines of code

App Service Helpers

- Built on top of Azure Mobile SDK
- Modular architecture
- Available on Nuget
- Open Source
